Dear Sir / Madam,

Re: Position of Civil Engineer

Â

Â

I would like to apply for a position as a Civil Engineer. I am interested in a role involving both practical and technical work. I believe that my experience, skills and qualifications make me a valuable candidate for your company.

Â

The enclosed CV demonstrates my experience within the Oil and Gas industry, working for Al Hoty (Aramco Project) and PDVSA (Petroleum of Venezuela) in several areas where I had different responsibilities. I worked overseeing a wide range of civil engineering projects including petrol filling stations, gas stations, construction of roads, costs estimates, managing contracts, supervising construction works, and others. In addition, the projects that I have undertaken have enhanced my skills in building relationships with clients and ensuring a quality process from start to finish within the time scales given.

Â

I graduated in Venezuela in 2002 and have worked in the construction industry, public administration, private construction and Oil and Gas field, currently am working in a temporary contract in Saudi Arabia, in addition to this experience, I am a very keen learner and would really appreciate an opportunity to start working within your company.

Â

Please find enclosed a copy of my CV for your consideration.

Â

Yours sincerely,

Â

Â

Jesus Rodriguez Â

Civil EngineerÂ
